Biz-Tech SERVICES

Managing Rentals within Sage?

Loaner and Rental Processing

- Define rental items. Assign rental billing by frequency code
- Define billing frequency codes by periodic, daily, weekly, monthly, or annually
- Rental Order Entry Screen allows multiple rental items with different rental date ranges, and billing date ranges
- Shipping and Return of rental items from Rental Order Entry Screen
- Generate billing forecasts from rental order line entry based on frequency codes. Track rental billing and invoices from the forecast
- Rental item availability dashboard for serialized and non-serialized items. Color-coded availability by date
- Allows for sale of missing and damaged rental items
