KEY BENEFITS

SAVE TIME AND ELIMINATE PAPERWORK

- Automate the requisition process, including order collection, supplier bids, sending and approving quotes, issuing purchase orders, and receiving goods

ENHANCE WORKFLOW AND APPROVALS

- Use approval maps and authorizations to ensure that the right people are alerted when they are needed in the process

STREAMLINE VENDOR BIDDING

- Eliminate paperwork and speed up the bidding process by emailing requests to multiple vendors
- Award business to a single vendor or select multiple vendors for different line items on the request

PROVIDE SALES QUOTES EASILY

- Create sales quotes based on catalog pricing or cost-plus algorithms
- Print or email quotes to customers
- Generate sales orders and purchase orders automatically to complete sales activities

REQUISITION MANAGEMENT FEATURES AND CAPABILITIES

Purchasing Integration	Automatically create purchase orders in the purchase order module from approved requisitions.
Predefined Request Lists	Limit requests to a specific list of inventory items by user.
Hide Inventory Items	Optionally hide your product catalog from users, requiring manual item entry.
Collect and Organize Requests	Bundle requests from multiple sources in a single requisition. Create approval rules based on quantity, request amount, or other factors.
Request Classes	Set requisition defaults by request class to simplify data entry and reduce errors. Limit selection to a specific list of items, create customer-only requests, hide vendor information, hide inventory catalog information, allow multiple vendors per request, and set promised lead times.
Create Customer Quotes	Create customer quotes to offer a price to customers for requested goods.
Sales Order Integration	Turn an approved quote into a sales order form with one click. Sales orders are managed by the rules within the sales order module and linked to the requisition for easy access.
Complete Integration	Take advantage of integration with purchasing, order management, inventory management, and all Acumatica financial modules to automate all processes, eliminate duplicate data entry, and properly account for all transactions.
Audit Trail	Automatically create a complete audit trail of all transactions, including the identity of users who entered and approved the transaction or modified the record. Optional notes and attached electronic documents remain with the activity records.
